

## Specialty and Custom Chemicals Since 1968

### E-SPERSE® 325 PIGMENT DISPERSANT

#### PERFORMANCE BENEFITS

E-Sperse® 325 is designed for use with non-polar pigments such as Yellows 14, 74, and 83. Better long term stability results when this product is combined with either anionic E-Sperse® 100 or E-Sperse® 324. This product can be used in other aqueous applications as well as applications requiring solution resins.

#### APPLICATION DATA

Basic formulations should start at 10%-12% on total weight of pigment. One to two percent for resinated systems is recommended. Optimization of the correct dosage level can be achieved by developing a ladder series for the pigment used.

#### TYPICAL PROPERTIES

Appearance:	Liquid
Ionic Nature:	Nonionic
Solubility:	Clear in water
Activity:	99%
